Heart Gallery Overview

Every child deserves love. The Heart Gallery of Tampa supports children in foster care who are waiting to be adopted. These children are just like any other children, only they've experienced abuse, abandonment, and neglect. They find themselves in foster care through no fault of their own. What they need most is a family.

Through professional photography, videography, traveling exhibits, and online galleries, the Heart Gallery provides children in foster care with a platform to share their stories. By showcasing their uniqueness and allowing them to express the type of family they hope to find, we empower them to advocate for themselves. Since 2004, the Heart Gallery has had the privilege of helping nearly 400 children find their forever families.

Noah, age 15

One year later...

"If you've ever been through the adoption process, you'll know just how complex it can be. Thankfully, we had the ladies at the Heart Gallery with us on our journey. From day one, they pulled us under their wing, and helped us navigate through every step of the process. They were there for the hard days - when the matches didn't pan out. They were there for the exciting days - finding out we'd been officially matched and that we'd finally get to meet Noah - the boy who was always meant to be our son.

They've celebrated holidays with us, made Noah's 16th birthday something so magical, it still brings tears to my eyes. Thank you, to our Heart Gallery Family, for helping us achieve our dream of becoming parents, for giving us our son, and for loving him so purely until we found each other."
